## Summary

Note: All yield levels are volume-weighted average yields in the last trading hour of the day

Source: CRISIL MI&A Research

## Gilt indices

The yield on the 10-year benchmark government security (G-sec; 7.18% GS 2033) closed March at 7.05%, down 3 basis points (bps) from the February close.

The month began on a positive note in anticipation of rate cuts in the United States (US) in the middle of the calendar year, which led to a decline in US Treasury yields. Federal Reserve chairman Jerome Powell's commentary in the beginning of the month hinting at rate cuts this year supported the bullish market sentiments. By the mid of the month, yields hardened, owing to higher-than-indicative calendar amount of the state development loans (SDL) auction and surge in US Treasury yields. By end of the month, yields softened due to lower-than-expected Government borrowing calendar for H1FY25.

Inflation based on the Consumer Price Index (CPI) was down 1 bp to 5.09% in February, compared with 5.1% in January 2024. Food inflation printed 33 bps higher at 8.66%, as against 8.3% in January. Core CPI eased to 3.5% in February from 3.7% the month before.

The CRISIL 10-year SDL index returned 0.74% in February, with the yield softening 3 bps on-month.

## Credit indices

The returns on credit indices ranged 0.08-1.18% in March vs 0.27-1.47% in February. Credit spreads on annualised G-sec yields in the 10-year maturity segment — based on the PSU FI benchmark paper in the 10-year segment — softened 9 bps on-month, compared with 1 bps softening in February.

The yield softened 8 bps in the one-year segment compared with 6 bps in February and fell 12 bps in the 10-year segment as against 8 bps the previous month.

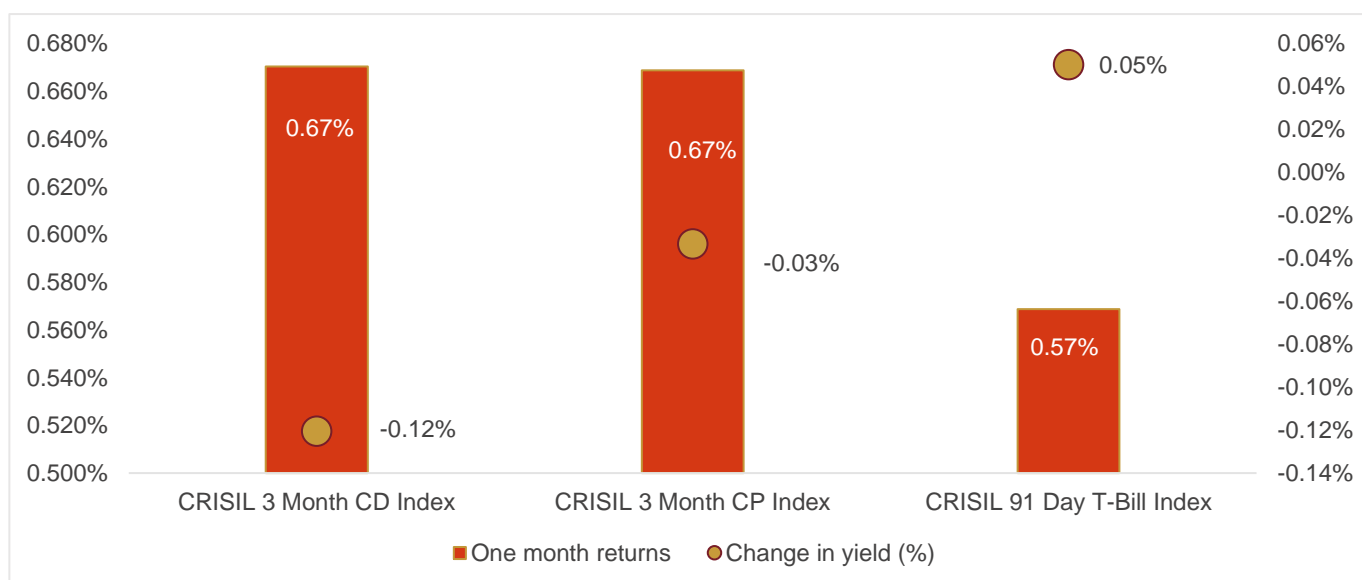

## Money market indices

Market liquidity remained volatile in March. The Reserve Bank of India (RBI) conducted variable-rate reverse repo auctions, in which only one auction received bids worth more than the notified amount. The other auctions received a muted response.

In fact, the month started with a Rs 40,002 crore liquidity deficit on account of goods and services tax and advance tax outflows. It turned into a surplus of Rs 40,901 crore on March 4, owing to RBI's money market operations. It increased to Rs 48,210 crore surplus by the end of the month as the central bank supported liquidity with variable rate repo auctions.

Meanwhile, the weighted average call rate continued to hover around the marginal standing facility rate of 6.75% or higher for most of March and touched a low of 6.15%. Returns on money market indices in March ranged 0.56-0.86% vs 0.52-0.74% in February.

Yields declined 12 bps for three-month certificates of deposit (CDs), 3 bps for three-month commercial papers (CPs) and increased 5 bps for 91-day treasury bills (T-bills).

## Dollar index

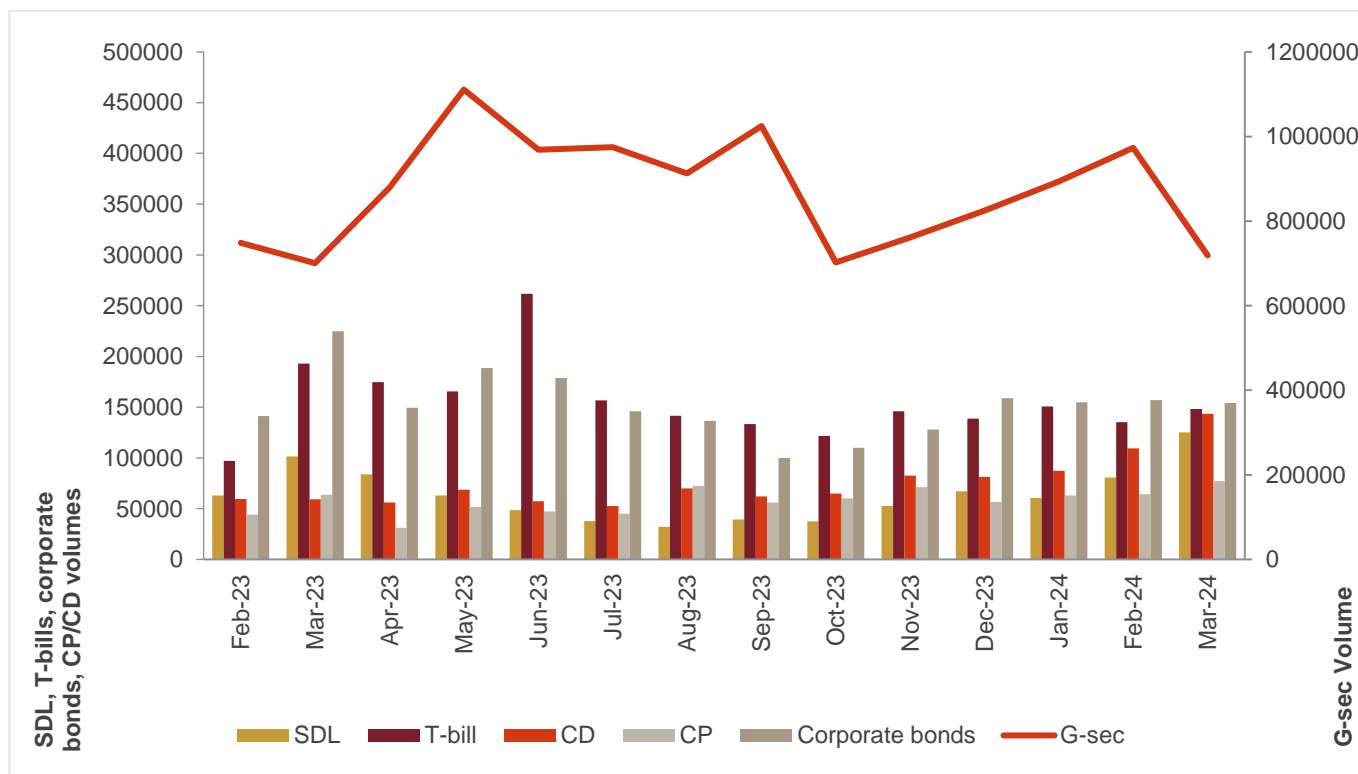

Returns on dollar-denominated fixed-income indices ranged 0.03-0.21%, compared with 0.57-0.76% for rupee-denominated peers. The rupee depreciated 0.54% against the US dollar.
