## Rating Rationale

October 20, 2021 | Mumbai

### Rex Pipes And Cables Industries Limited

'CRISIL BB / Stable' assigned to Bank Debt

#### Rating Action

<b>Total Bank Loan Facilities Rated</b>	<b>Rs.22 Crore</b>
<b>Long Term Rating</b>	<b>CRISIL BB/Stable (Assigned)</b>

1 crore = 10 million

Refer to Annexure for Details of Instruments & Bank Facilities

#### Detailed Rationale

CRISIL Ratings has assigned its 'CRISIL BB/Stable' ratings to the bank facilities of Rex Pipes And Cables Industries Ltd (RPCI).

The ratings reflect the extensive experience of the promoter in the pipe and pipe fittings industry and healthy debt protection metrics of the company. These strengths are partially offset by susceptibility to slowdown in end-user industries and to government policies, and large working capital requirement.

#### Key Rating Drivers & Detailed Description

##### Strengths

##### Extensive experience of the promoter:

The promoter's experience of over 10 years in the pipe and pipe fittings industry, understanding of market dynamics and established relationships with suppliers and customers will continue to support the business.

##### Healthy debt protection metrics:

Debt protection metrics were comfortable despite leverage owing to moderate profitability. Interest coverage and net cash accrual to total debt ratios were 2.75 times and 0.13 time, respectively, in fiscal 2021, and are expected to remain at similar levels over the medium term.

##### Weaknesses

##### Susceptibility to slowdown in end-user industries and to government policies:

The company derives majority of revenue from the real estate and infrastructure industries. Severe slowdown in the end-user industries will weaken demand for line pipes and impact performance. Furthermore, revenue is susceptible to government policies, local supply and trade duties.

##### Large working capital requirement:

Gross current assets were 150-170 days over the three fiscals ended March 31, 2021, and 150 days as on March 31, 2021, driven by large inventory and receivables of 86 and 60 days, respectively.

##### Liquidity: Stretched

Bank limit of Rs 12.5 crore was utilised 83.95% for the 15 months through August 2021. Expected cash accrual of Rs 3-4 crore per fiscal will comfortably cover yearly debt obligation of Rs 3 crore over the medium term. Cash and bank balance was Rs 0.62 crore, and current ratio was 1.33 times, as on March 31, 2021.

##### Outlook Stable

CRISIL Ratings believes RPCI will continue to benefit from the extensive experience of the promoter and established relationships with suppliers.

#### Rating Sensitivity factors

##### Upward factors:

- \* Growth in revenue and sustenance of operating margin
- \* Improvement in the financial risk profile, aided by nil major debt-funded capital expenditure

##### Downward factors:

- \* Decline in operating income and fall in operating margin below 6%
- \* Further stretch in the working capital cycle, weakening the financial risk profile and liquidity
